// SUMMARY

Security professional with 15+ years spanning cloud security engineering, offensive security, identity infrastructure, and compliance. Proven record designing and operating security controls in Azure and AWS. Hands-on with threat modelling, penetration testing, SAST, PKI/HSM operations, network AAA infrastructure, and DevSecOps. Dual Azure-certified (AZ-104 + AZ-500, renewed 2026). Burp Suite Certified Practitioner. Active CTF competitor – top 1% nationally in CyberGame 2026.

// CORE COMPETENCIES

Security Engineering & Architecture

- Penetration testing (web, cloud, application)
- Threat modelling & secure-by-design review
- SAST / DevSecOps pipeline integration
- Cloud security architecture (Azure, AWS)
- Network security (AAA, TACACS+, RADIUS)
- IEC 62443, PCI-DSS, ISO 27001

Cloud & DevOps

- Azure (AZ-500 + AZ-104, renewed 2026)
- AWS – EC2, IAM, VPC, S3, GuardDuty, CloudTrail
- CI/CD pipelines – Azure DevOps
- Infrastructure as Code (IaC security linting)
- Python · Bash · PowerShell

Identity & Access Management

- OAuth 2.0 / OIDC / SAML
- Cloud IAM – AWS & Azure (RBAC, least-priv.)
- PKI / HSM lifecycle management
- Secrets management (AWS Secrets Manager)
- AAA infrastructure & service-to-service auth

Leadership & Communication

- Product ownership & roadmap definition
- PTaaS delivery management
- Executive risk reporting & stakeholder briefings
- Agile / Scrum squad experience
- Conference speaker – Openslava 2024 & 2025

// COMPETITION RESULTS – ATTACKER'S PERSPECTIVE

#2 BSides Bratislava CTF 2026 – high-level offensive skills vs experienced regional practitioners	May 2026
#8 CyberGame 2026 (NBU SR / SK-CERT) – top 1% · 8th / 921 participants	Mar–May 2026
#17 Operation Heist CTF 2026 – captained team e0_	13–14 Jun 2026
#22 Guardians Quals 2026 – blue team defence · captained I099627 · 22nd / 130 teams	19 Jan – 1 Feb 2026
#28 THEM?!CTF 2026 – captained team e0_ · 28th / 920 teams	29–31 May 2026
#73 GPN CTF 2026 – co-captained team e0_ · 73rd / 1,138 teams	5–6 Jun 2026
#255 DEF CON CTF Qualifier 2026 – captained team e0_ · 255th / 686 teams	May 2026
#297 0xfun CTF 2026 – captained knowitalls · 297th / 1,351 teams	Feb 2026

// PROFESSIONAL EXPERIENCE

Independent Security Researcher

Mar 2026 – Present · Remote

e0 Security

› Active CTF competitor and team captain across international competitions – see Competition Results above.

CTF · Offensive Security Research · Python

Senior Penetration Tester / Source Code Analyst

Mar 2024 – Feb 2026 · Bratislava · Hybrid

Siemens Healthineers

- › Designed and executed comprehensive penetration tests across Azure-hosted healthcare platforms – app-to-app authentication, authorisation flows, privilege escalation, and secrets handling.
- › Conducted SAST across healthcare software aligned to IEC 62443 – identity-related code paths, injection risks, and hardcoded credentials.
- › Integrated security testing into CI/CD pipelines on Azure DevOps – automated secret detection and policy-as-code gates.
- › Translated findings into executive-level risk reports; advised on access control hardening and cloud security policy.
- › Speaker at Openslava 2024 & 2025 – presenting on offensive security to technical and mixed audiences.

Azure DevOps · Web & Cloud Pentesting · SAST · Secrets Detection · IEC 62443 · Executive Reporting

Security Operations Engineer

Mar 2022 – Feb 2024 · Bratislava

iptiQ by Swiss Re

- › Administered AWS IAM across multiple accounts – RBAC structures, least-privilege policies, and service account lifecycles.
- › Owned secrets management via AWS Secrets Manager – rotation policies, access auditing, hardcoded-credential elimination across microservices.
- › Implemented CloudTrail, GuardDuty, and S3 security policies; performed continuous threat hunting and incident response.
- › Introduced IaC security linting and automated compliance scanning in an Agile squad.

Penetration Testing as a Service – Delivery Manager

Jun 2019 – Feb 2022 · Bratislava

Swiss Re

- › Owned full PTaaS programme lifecycle – scope, roadmap, and SLAs aligned to Swiss Re's cloud security strategy across Azure and AWS.

› Managed external ethical hacker teams; coordinated cloud-hosted auth/authz testing and built executive risk dashboards.

Product Ownership · PTaaS Delivery · Azure/AWS · Stakeholder Communication · Risk Reporting

Information Security Specialist

Sep 2016 – May 2019 · Bratislava

VUB banka (Intesa Sanpaolo Group)

› PKI operations and HSM lifecycle for internet and mobile banking platforms serving millions of users – CA operations, token issuance, PCI-DSS compliance.

PKI · HSM · Certificate Management · Secrets Governance · PCI-DSS

// EARLIER EXPERIENCE

First Data Corporation – EMEA Security Devices Manager · Lifecycle of 200+ military-grade SCDs across EMEA Tier 3+ data centres; cryptographic infrastructure consulting. Mar 2014 – Aug 2016

KPMG – IT Security Consultant · ISO 27000 compliance, risk analysis, and security governance for public and private sector clients. Mar 2013 – Feb 2014

Hewlett Packard Enterprise – Network Infrastructure Security Engineer · AAA infrastructure (TACACS+, RADIUS, Cisco ACS) securing ~20k devices and ~50k users globally. RHCE. Aug 2010 – Feb 2013

// CERTIFICATIONS

AZ-500 Azure Security Engineer · Microsoft · Renewed 2026	BSCP Burp Suite Certified Practitioner · PortSwigger · 2024–2029
AZ-104 Azure Administrator · Microsoft · Renewed 2026	RHCE/RHCSA Red Hat · Jan 2011

// EDUCATION

M.Eng. – Applied Informatics, specialisation Security Engineering

Slovak University of Technology in Bratislava (STU) · 2005–2010

- Diploma thesis (A): Methodologies for Examination of Information Systems Security
- Award-winning bachelor thesis on HPC cluster simulation
